RAGGIUNGI KINDERINO

Un gioco di logica per 1 o più giocatori.

CONTENUTO

4 fogli A4 con 4 tabelloni, 45 schemi KINDERINO e 24 barrette colorate.

MONTAGGIO

Ritagliate le barrette colorate.

SCOPO DEL GIOCO

Dovete trovare il percorso giusto e arrivare a destinazione.
Per farlo, tenete presente che ogni tabellone ha dei tratti di colori diversi, intervallati da caselle circolari vuote o contenenti KINDERINO.
Osservate l'obiettivo indicato sullo schema, prendete le barrette indicate e corrispondenti ai tratti da percorrere e, dopo aver esaminato i possibili percorsi, posizionatele sul tabellone nell'ordine corretto.

I TABELLONI

I tabelloni mostrano dei percorsi colorati: a ogni tabellone sono associati alcuni schemi di gioco.
I tabelloni sono i seguenti: A (schemi dall'1 al 6), B (schemi dal 7 al 14), C (schemi dal 15 al 29), D (schemi dal 30 al 45).

GLI SCHEMI

Ogni schema presenta le seguenti informazioni:
A) Numero progressivo, corrispondente al livello di difficoltà
B) Casella di partenza
C) Tappa intermedia (presente in alcuni schemi)
D) Casella di destinazione
E) Barrette da utilizzare per ogni colore
F) Lettera in alto dello scenario corrispondente
Ogni schema prevede una sola soluzione, riportata sul foglio con le soluzioni.

SVOLGIMENTO

Scegliete un tabellone e prendete uno schema corrispondente, poi:
1) Osservate la destinazione indicata sullo schema.
2) Prendete le barrette previste dallo schema: ogni barretta corrisponde a un tratto preciso del tabellone.
3) Osservate il tabellone e, considerando le barrette a disposizione e l'eventuale tappa intermedia, cercate l'unico percorso che vi porta alla corretta destinazione.
• Se siete riusciti a ripercorrere il giusto tragitto rispettando lo schema della carta, complimenti! Avete risolto lo schema!
Potete passare alla scheda successiva.
• Se non siete giunti a destinazione, cambiate la disposizione delle barrette.
Se non riuscite ad arrivare a destinazione, potete consultare il foglio con le soluzioni.

SUGGERIMENTI

• Vi consigliamo di seguire la numerazione progressiva delle schede, partendo dal tabellone A e lo schema numero 1.
• All'inizio fatevi aiutare da un adulto, soprattutto se siete bambini di 5 o 6 anni.
• Gli schemi con A e B sono rivolti soprattutto ai bambini di 5 e 6 anni, quelli C e D ai bambini dai 7 anni in su e a chi ha completato correttamente i primi 2 tabelloni.

REGOLE UTILI DA RICORDARE

• Vi consigliamo di seguire la numerazione progressiva delle schede, partendo dal tabellone A e lo schema numero 1.
• All'inizio fatevi aiutare da un adulto, soprattutto se siete bambini di 5 o 6 anni.
• Gli schemi con A e B sono rivolti soprattutto ai bambini di 5 e 6 anni, quelli C e D ai bambini dai 7 anni in su e a chi ha completato correttamente i primi 2 tabelloni.
